

**Subject:** Re: AIP Advances MS #ADV18-AR-03604 Decision Letter  
**From:** Patrick Frank <pfrank@slac.stanford.edu>  
**Date:** 1/3/19, 5:15 PM  
**To:** aipadv-edoffice@aip.org

Dear Dr. Tanaka,

As a follow-up, please send me the completed reviews

The 31 Decembr 2018 email from Ms. Nikki Zielinski related that, "Your manuscript has now completed peer review and is simply awaiting final editorial review before posting the decision."

I request copies of all the reviewer comments, as per the standard journal protocol following submission and review.

Thank-you very much,

Pat

Dear Dr. Frank,

Your manuscript, referenced below, has been considered for publication in AIP Advances:

"Propagation of Error and the Reliability of Global Air Temperature Projections"

Unfortunately, this manuscript does not fall under the range of topics that are covered by AIP Advances, which focuses on the applied physical sciences. We recommend that you consider submission to a more appropriate journal.

If you have any questions, please contact us at [aipadv-edoffice@aip.org](mailto:aipadv-edoffice@aip.org).

Sincerely,

Dr. Masaaki Tanaka  
Deputy Editor
