Dear Ms. Ali,

Thank-you very much for your consideration. Your decision makes things easy for me.

I apologize for any inconvenience I caused. I found no option for uploading a revised manuscript at the Journal website.

The files are large, and I didn't want to email them. So, failing any other instructions, I uploaded the files as a new manuscript, knowing you would find them.

Again, I apologize for the inconvenience.

Thanks again for your patience.

Best wishes,

Pat

Dear Dr. Frank,

Thank you for your feedback. We noticed that you have submitted the updated PDF file as a new submission accordingly we will not proceed with the new submission under track number 3290796 and we have uploaded the updated files to the original manuscript under track number 5153401.

Best regards,

Rana

Dear Ms. Ali,

Thank-you for your email. I can modify the manuscript as you suggest.

A question however. On page 19, for example, the reader is referred to "Figure S3 through Figure S7 in the Supplemental Information..."

The condensation "Figure S3 through Figure S7" implicitly includes Figure S4, Figure S5, and Figure S6.

Am I correct that you would like this changed so that each individual Figure is mentioned separately?

Also, should the revised manuscript be uploaded at the journal site?

Thanks very much for your consideration,

Pat

Dear Dr. Frank,

This is regarding manuscript 5153401 titled "Propagation of Error and the Reliability of Global Air Temperature Projections" We noticed that not all the supplementary material figures and tables are within the text, as figure 1,3,7,8 and 10 and table 1,3,4 only are cited within the text. Please cite all the figures and tables within the text.

We also noticed that there is phone numbers included in the PDF file of the manuscript. In order to protect the authors privacy please remove them.

I look forward to your feedback.

Best regards,

Rana
