---

Dear Patrick Frank,

We are pleased to inform you about the Topical Editor assignment of your following submission:

Journal: GMD  
Title: Propagation of Error and the Reliability of Global Air Temperature Projections  
Author(s): Patrick Frank  
MS No.: gmd-2017-281  
MS Type: Methods for assessment of models  
Iteration: Initial Submission

James Annan is the Topical Editor who will handle the review process of your manuscript. You will be informed about the outcome by separate email.

You are invited to monitor the processing of your manuscript via your MS Overview:  
[http://editor.copernicus.org/GMD/my\\_manuscript\\_overview](http://editor.copernicus.org/GMD/my_manuscript_overview)

To log in, please use your Copernicus Office user ID 421670.

In most cases Topical Editors assign themselves. However, on some occasions, to ensure rapid handling of manuscripts, it may be necessary for Topical Editors to be assigned directly by one of the Executive Editors. In case of unforeseen conflicts of interest or other reasons, it may sometimes be necessary to change the Topical Editor.

In case any questions arise, please contact me.

Kind regards,

Natascha Töpfer
