So how does it work, Tim — are you truly so dishonest, or merely stampeded into cowardice?

You must know very well manuscript JCLI-D-15-0797 is correct.

And that the reviews are incompetent.

When did science become the willful suppression of valid criticism?

When did science countenance a conscious defense of the false?

When did wrong become privileged?

When you sit at your desk, wouldn't professional dishonesty rob your life of meaning and purpose?

Yours sincerely,

Pat Frank
